

Stage 3 Remote Learning Timetable Week 11 Term 1 2020

Times and days indicated are to be used as a guide only; as are the activities.

Parents/caregivers - please use your judgement to make any alterations you feel are appropriate.

Monday

8:55am	Roll Call; Welcome																																																																																																																																																																									
9:05am	<p>Grammar Create a find-a-word which includes 10 nouns and 10 adjectives. Get someone at home to find the words if possible. Make sure you have a list of your nouns and adjectives on the same page ready for someone to search for them.</p>																																																																																																																																																																									
9:55am Crunch 'n' Sip Break																																																																																																																																																																										
10:05am	<p>Geography Click Managing Bushfires, underneath the video click the "things to think about" tab. Complete the before viewing activity. Watch the video while you complete the "As You View" activity. Then complete the "After Viewing" activity. If you have time complete the "Next Steps" activities. OR if you do not have internet access: Create a poster for our classroom on what we have to do in case of a fire.</p>																																																																																																																																																																									
10:55am Recess Break																																																																																																																																																																										
11:25am	<p>Mathematics Draw up a 1-12 Multiplication grid in your book or on your online doc. Example pictured to the right. Set a timer and see how quickly you can complete it. Mark your Grid using a calculator or checking with a times tables chart. If you complete this task with time to spare, you can go online to the maths games that your class teacher usually lets you play. If you can't remember the website or your teacher has not allocated you a website, you could go to https://www.coolmath4kids.com/. Make sure you complete the multiplication games. ** If you do not have the ability to go online to play a game, you could create your own game using multiplication facts.</p>																																																																																																																																																																									
	<table border="1"> <thead> <tr> <th>X</th> <th>1</th> <th>2</th> <th>3</th> <th>4</th> <th>5</th> <th>6</th> <th>7</th> <th>8</th> <th>9</th> <th>10</th> <th>11</th> <th>12</th> </tr> </thead> <tbody> <tr><td>1</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>2</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>3</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>4</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>5</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>6</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>7</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>8</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>9</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>10</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>11</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> <tr><td>12</td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td><td></td></tr> </tbody> </table>	X	1	2	3	4	5	6	7	8	9	10	11	12	1													2													3													4													5													6													7													8													9													10													11													12												
X	1	2	3	4	5	6	7	8	9	10	11	12																																																																																																																																																														
1																																																																																																																																																																										
2																																																																																																																																																																										
3																																																																																																																																																																										
4																																																																																																																																																																										
5																																																																																																																																																																										
6																																																																																																																																																																										
7																																																																																																																																																																										
8																																																																																																																																																																										
9																																																																																																																																																																										
10																																																																																																																																																																										
11																																																																																																																																																																										
12																																																																																																																																																																										
12:25pm	<p>Reading See individual class instructions on Google Classroom - Or choose a text and read. Then write a summary of what you have read.</p>																																																																																																																																																																									
1:10pm Lunch Break																																																																																																																																																																										
1:55pm	<p>Dance Participate in a dance activity for the rest of the day. Don't forget to add the activities to your diary. You could search for Just Dance, Tik Tok or use YouTube or use any music you have at home and make up a dance.</p>																																																																																																																																																																									
2:45pm	Wrap up																																																																																																																																																																									

Tuesday

8:55am	Roll Call; Welcome
9:05am	Grammar Write 10 complex sentences about bushfires using verbs and adverbs. Underline the verbs and adverbs used.
9:55am Crunch 'n' Sip Break	
10:05am	English Re-watch one or two of the stories from BTN, use your notes or watch a news program on TV. Then choose one of the news stories and pretend you're a news reporter. Film yourself presenting your news story. OR if you don't have a device, write a script for the news report.
10:55am Recess Break	
11:25am	Mathematics Choose 5 colours, then go around your house and tally how many times you see each colour. Record your data in a table and then create a graph showing the results. Remember to include all the features of a graph, like title, axis titles, data etc. If you have some time to spare, create another graph displaying the birthdays of people in your family – you may include your extended family.
12:25pm	Reading See individual class instructions on Google Classroom - Or choose a text and read. Then do an Artful Artist/Observer summarising what you have read.
1:10pm Lunch Break	
1:55pm	PE If you have a treadmill or exercise bicycle at home, use it during this time. Remember to do a cool down session before stopping. OR you could start marching on the spot, then slowly increasing the speed to jogging, then running. You could put music on while you are exercising. Do some leg stretches when you are done.
2:45pm	Wrap up

Wednesday

8:55am	Roll Call; Welcome
9:05am	Comprehension Re-watch one or two of the stories from BTN, use your notes or watch a news program on TV. Write down any connections from the stories with yourself, the world and other texts.
9:55am Crunch 'n' Sip Break	
10:05am	Science Using resources you have at home, create a car that moves on its own. As an example, look at this website . However, you could make one simply using bottle caps, toilet rolls, water bottles, skewers, sticky tape etc. and the force to make it move could be gravity. Write out a science experiment for the testing of your car, including an aim, materials, hypothesis, method and result.

Carry out the experiment of testing your car to see if it works.

10:55am Recess Break

11:25am

Mathematics

Length and Area:

Using an informal unit (e.g shoe length, hand length, book length, ipad length etc.) find the length and width of various spots around your area (home or classroom).

Find the area of these items. i.e. if an item is 3 hands long and 2 hands wide it is 6 hands squared.

Find a variety of items to measure.

Change the informal unit to something slightly larger. Measure the areas of larger spaces in the house/classroom. If you have access you may want to find the area of your outdoor space also/outside your classroom.

Make sure to record all of the items you have measured and the area of each.

12:25pm

Reading

See individual class instructions on Google Classroom - Or choose a text and read.

Then write a summary of what you have read.

1:10pm Lunch Break

1:55pm

Visual Art

Choose a spot in your room and draw an image from the perspective of an ant.

2:45pm

Wrap up

Thursday

8:55am

Roll Call; Welcome

9:05am

Comprehension

Find a current event or story in the media using the internet, newspapers, or magazines etc, and answer the following questions.

1. What was the article about?
2. Who was in the article?

What are your feelings towards the article?

9:55am Crunch 'n' Sip Break

10:05am

Current Affairs

Complete week 10 quiz which is attached below. We will post the answers later on Google Classroom. There is no Week 11 quiz.

10:55am Recess Break

11:25am

Mathematics

Complete the problem solving activities.

1. Uncle drove for two hours before lunch. He then drove 60 km after lunch, 80 km after afternoon tea and 70 km after dinner. Altogether he drove 300 km. How far did he travel before lunch?
2. Mr Shellco, a forgetful man, forgot how many kilometres he drove for work on Monday, but he remembered driving 100 km on Tuesday, 150 km on Wednesday, 80 km on Thursday and 120 km on Friday. If he ended the week with 550 km on the odometer, how many kilometres did he travel on Monday?

3. I know that I rode 5 km on Monday, 6 km on Tuesday and I stayed home on Wednesday and Thursday. On Friday, I rode a further 8 km and on Saturday I forgot to check. I know I have ridden my bicycle for 25 kilometres during the week. How many kilometres did I ride on Saturday?
4. Jilly Jumper, the kangaroo, is training for the Animal Olympics. She has so far jumped 1 m further than her sister, Jazzy, who jumps 2 m further than her friend, Bouncer, who has jumped 4 metres. How far has Jilly jumped?
5. Card collecting is a great hobby for the attendants who are in the Zooper Dooper Club. Zoo-goo cards are the craze. Lennie has 50 more than Denny, who has 20 less than Fozzie. Fozzie only has half as many as Beebie the champion, who has 200. How many does each boy have?
6. The movie *Home on Our Planet* opened last week at the Zoom-in Theatre. On Thursday, the largest crowd was 200 greater than on Friday. Friday's crowd was 100 less than Saturday's, which numbered 600. Sunday was quieter, with 150 less than Saturday. What was the total number of people at the movies Thursday, Friday, Saturday and Sunday?
7. The big, final darts game got under way right on time. Jack threw and amazingly scored an all-time best, beating his old best-ever score by 3. Then Jock stepped up and beat that score by 5. Jack was angry and, with a grim look on his face, bettered Jock's score by another 5 points. Jock didn't like that, so he chose his favourite, true-flying dart and with it, scored 99, 2 better than Jack's previous throw. It was all over! By how many had Jock beaten Jack's original 'best-ever score'?
8. Connie and Jock, the Voombahs, combined to contest the Club Championship with the Jetskis team. The Voombahs began with an outstanding score, 2 better than their previous record. They then bettered that by 3 points, dropped back by 2 points, and finally finished with a score one better. The Jetskis began their turn with a good throw, bettered it by 2, then another 3 and improved by 2 to end with an 87, 6 better than the Voombahs opening throw.
A What were the final total scores?
B What were each team's final throws?

12:25pm

Reading

See individual class instructions on Google Classroom - Or choose a text and read.
 Then do an Artful Artist/Observer summarising what you have read.

1:10pm Lunch Break

1:55pm

ANZAC Day

What day is ANZAC Day?
 What does it commemorate?
 What does the rosemary represent?
 Why is a wreath used in the ceremonies?
 Using materials you have around the house, create a wreath for your household.

2:45pm

Wrap up

Friday – 1st day of the holidays

YAY – You've successfully completed 3 weeks of remote learning.

Hope you all have a lovely break from school.

Weekly Quiz

1. True or false, the Tokyo Olympic games has been postponed until September 2020?
